Hamilton.

Re: Construction of footpath, Biophysics Hill, South Hwy
25, Whitianga

To whom it may concern,

I William Davis, on behalf of the above trust would like to take this opportunity to thank and show our appreciation to Cambridge Construction LTD and too Chris and his hard working team for the job that was completed on the above area of roading in Whitianga. Myself and the above members of the trust have received so much positive feed back from the community near and far and it has made negotiation of the above road safer and much more enjoyable.

So it is for this reason that I put pen to paper to pass on the appreciation of ourselves and that of the community at large of Whitianga.

On that note, I take this opportunity to wish your whole team a enjoyable Xmas and New Year and an exciting and successful New Year.

Kia ora from us to you all.

Wk Davis
